

ICP IM network and database status

- Total **48 active sites** from **15 countries** in the network.
- Data submission for at least part of the 'data period' 2015–2019: Austria, Belarus, the Czech Republic, Estonia, Finland, Germany, Ireland, Italy, Lithuania, Norway, Poland, the Russian Federation, Spain, Sweden, and Switzerland.
- **Most countries** have reported data for data year 2019. Some data is missing due to Covid problems eg. labs/institutes closed.
- Database(s) were **transferred to SLU Sweden** at the end of January 2021. Data received after this date not yet stored.

ICP IM Sites

- active site
- passive site

Thanks to everybody for your co-operation!

- I would like to thank everybody for the long and excellent co-operation during all these years. I will retire on the 1st of June.
- Possibly, if negotiations with SYKE work out, I will be available for a few days in Autumn to help SLU with any problems in next data delivery and/or old data.
