

Field measurement platform EnviStation

Transferable laboratory - continuous measurement platform

Research: Flexible instrumentation options for water quality monitoring and water sampling.

Main parts: Trailer, flow through system with sensors. Weight 2000 kg, height 3,0 m, length 5,6 m and width 2,3 m.

Independent power system with solar panels, batteries and automatic generator

Sampling: Flow through water sampling system

Parameters: conductivity, temperature, pH, turbidity, DO, UV-abs
