

IM data submission and database status 2014

Sirpa Kleemola, SYKE
ICP IM Task Force meeting, Westport,
Republic of Ireland
8 May 2014

ICP IM network

- data submission for at least part of the 'data period' 2008 - 2012: Austria, Belarus, Canada, the Czech Republic, Estonia, Finland, Germany, Italy, Latvia, Lithuania, Norway, the Russian Federation, Spain, Sweden, and United Kingdom. Canada will deliver the missing data in 2014.
- Ukraine re-established site UA01 and provided data in 2013
- Norway added a third site NO03 Langtjern in 2013
- Republic of Ireland re-established site IE01 in 2012 and will provide data in 2014
- total 16 countries, 46 sites (including CA01)
- ICP IM programme not presently in Latvian National Environment Programme and only a 'very limited programme' running. United Kingdom had no funds for participation this year.

Data reported in 2013/2014

For data year 2012

- 13 countries have reported 2012 data so far
 - Austria, Belarus, the Czech Republic, Estonia, Finland, Germany, Italy, Lithuania, Norway, the Russian Federation, Spain, Sweden and Ukraine
 - Some sites/subprogrammes missing from above mentioned countries
- For details please see Draft Annual Report 2014

IM web pages

- 'New' short address:
www.syke.fi/nature/icpim
- ICP IM Manual transferred to the same location with minor updates
