

Maritime traffic in the Baltic Sea is in its busiest in the Gulf of Finland.

The Gulf is an important maritime fairway mainly due to oil and cargo transportation to and from Russia.

This presented scheme does not take into account the passenger ferry traffic between Helsinki and Tallinn. Annually about nine million trips are made between the cities with about 20 daily departures from Helsinki.

S Y K E

Ships that entered and left the Gulf of Finland

Daily average

55 cargo ships

20 tankers

14 passenger ships

16 other ships

In total 105 ships

Annually

2013

5 261 passenger ships

20 113 cargo ships

7 118 tankers

3 975 other ships

1 683 unidentified ships

38 150 totally
